Lynn Canal Highway

This is the most important project to the State to date and I support its funding. No other project in the state will save as much money for all state residents.

- Because a road runs 24 hours a day, This would accommodate the greatest travel demand and provide the most flexibility for Alaskan families who could travel at will any time of year.
- Our state ferries require huge annual subsidies while highways pay for themselves through gasoline taxes.
- A road would be less expensive to operate reducing the cost of travel in the upper Lynn Canal. This benefits the state, Alaskan families, individuals and independent visitors.
